

# ***Pulcra Industrial Sweeper***

**Ref. 02.EL.1200/1500/2000/2500**

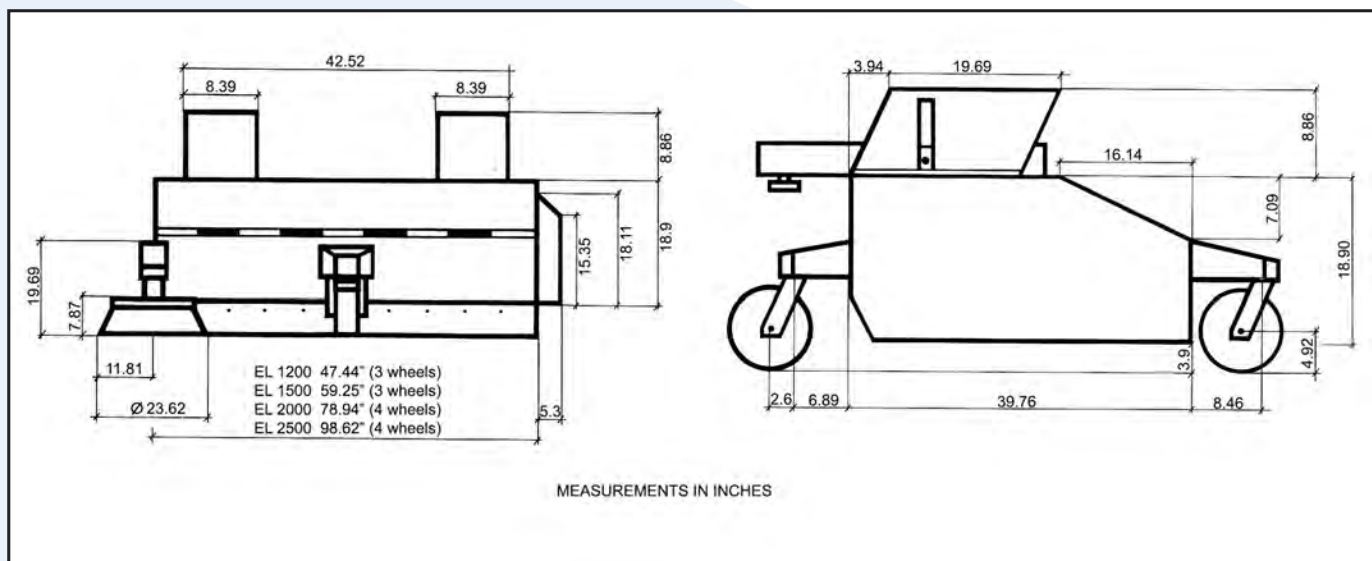

# Pulcra Sweeper

Ref. 02.EL.1200/1500/2000/2500

- Ideal for jobs indoors or outdoors
- Extraordinary sweeping efficiency
- Productivity of over 35,000 yd<sup>2</sup>/Hr.
- Simple operation from the seat of the carrier
- Floating mount for each type of carrier to compensate for uneven surfaces
- Fully hydraulic, using the carrier's hydraulic system (Auxiliary hydraulics used where available, hydraulic forklifts may require minor modification, dependent on valves available)
- Self-loading, with hydraulic opening and closing of hopper (Patented system)
- Long lasting ductile brushes with self-adjustment to surface conditions
- Special long lasting polypropylene support wheels for jobs in rough or abrasive areas
- High quality paint and finishes to withstand the worst job conditions
- Not for use on electric forklifts.
- Optional water spray dust control system
- Optional hydraulic side brush/brushes

## Technical Specifications

Model	02.EL.1200	02.EL.1500	02.EL.2000	02.EL.2500
Working Pressure (psi)	1800	1800	1800	2900
Flow Rate (gpm)	3.5/20	4.5/20	5.25/20	5.25/20
Hopper Opening/closing	Hydraulic	Hydraulic	Hydraulic	Hydraulic
Sweeping Width (inches) *	47.44	59.25	78.94	98.62
Total Width (inches) **	52.76	64.57	84.25	103.94
Weight with Side Brush (lbs.)	838	926	1168	1367
Brush Material	65% steel / 35% Wavy Polypropylene			

\* Other Widths Available \*\* Without Side Brush(es)

## Additional Applications

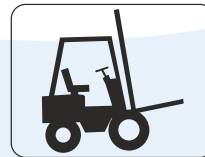

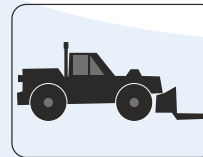

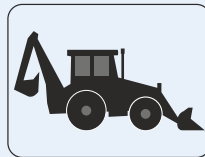

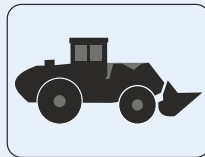

Optional dual brushes for sweeping on both sides at the same time.

Optional galvanvanized construction for use in extremely corrosive conditions.
